Cephalalgia 1992;12. Oslo. ISSN 0333-1024

Author index

Abbritti G
Serum and salivary magnesium levels in migraine and tension-type headache. Results in a group of adult patients, 21
Abuaf N
Platelet size and volume distribution measured by automated platelet analyzer, 321
Alm C
Cytochrome P-450-dependent hydroxylation in migraine, 158
Amarenco P
Pain as the only manifestation of internal carotid artery dissection, 314
Anderson M
Visual field loss after attacks of migraine with aura, 349
Bach FW
Letter-to-the-Editor, 390
Banerjee M
Sumatriptan in the treatment of acute migraine with aura, 39
Bánk J
The blink reflex in migraine, 289
Barendse G
Letter-to-the-Editor, 326
Barret L
Cytochrome P-450-dependent hydroxylation in migraine, 158
Baumgartner C
Tension headache and the cervical spine—plain x-ray findings, 152
Bayliss EM
Treatment of migraine attacks with subcutaneous sumatriptan: first placebo-controlled study, 308
Bense E
The blink reflex in migraine, 289
Bernardi G
Migraine with aura-like syndrome due to arteriovenous malformation. The clinical value of transcranial Doppler in early diagnosis, 115
Bertling I
Cytochrome P-450-dependent hydroxylation in migraine, 158
Biousse V
Pain as the only manifestation of internal carotid artery dissection, 314
Bjerve K
Cluster headache: phospholipid metabolism in polymorphonuclear cells, 107
Blau JN
Letter-to-the-editor, 391
Bordini C
Cluster headache: alterations in heart rate, blood pressure and orthostatic responses during spontaneous attacks, 172
Böttger IG
The influence of acetazolamide on cerebral blood-flow regions in migraine—an interictal ^{99m}Tc-HMPAO SPECT study, 284
Bousser M-G
Headache following carotid endarterectomy: a prospective study, 380
Ipsilateral cluster headache and chronic paroxysmal hemicrania: two case reports, 318
Letter-to-the-Editor, 125
Pain as the only manifestation of internal carotid artery dissection, 314
Brennum J
Evaluation of pericranial myofascial nociception by pressure algometry. Reproducibility and factors of variation, 33
Letter-to-the-Editor, 327
Presentation of a new instrument: The diagnostic headache diary, 369
The 5-HT$_1$-like agonist sumatriptan has a significant effect in chronic tension-type headache, 375
Breslau N
Migraine epidemiology, 186
Migraine, major depression and panic disorder: a prospective epidemiologic study of young adults, 85
Brochet B
A nationwide survey of migraine in France: prevalence and clinical features in adults, 229
Broux R
Unilateral facial pain as the first symptom of lung cancer: are there diagnostic clues? 178
Brubakk AO
Cluster headache: alterations in heart rate, blood pressure and orthostatic responses during spontaneous attacks, 172
Bussone G
Beta-endorphin concentrations in the peripheral blood mononuclear cells of migraine and tension-type headache patients, 155
Immunological alterations in cluster headache during remission and cluster period. Comparison with low back pain patients, 250
Letter-to-the-Editor, 390
Caekebeke JFV
Blood flow velocities in the vertebrobasilar system during migraine attacks—a transcranial Doppler study, 29
Calabresi P
Migraine with aura-like syndrome due to arteriovenous malformation. The clinical value of transcranial Doppler in early diagnosis, 115
Calando Y
Subcortical cerebral blood flow and metabolic changes elicited by cortical spreading depression in rat, 137
Cavallini A
Accompanying symptoms of cluster attacks: their relevance to the diagnostic criteria, 165
Clifford Rose F
The Tolosa-Hunt syndrome, 4
Coata G
Serum and salivary magnesium levels in migraine and tension-type headache. Results in a group of adult patients, 21
Cole J
Sumatriptan in chronic cluster headache:

results of continuous treatment for eleven months, 254
Couturier EGM
Weekend attacks in migraine patients: caused by caffeine withdrawal? 99
Cupini LM
Migraine with aura-like syndrome due to arteriovenous malformation. The clinical value of transcranial Doppler in early diagnosis, 115
D'Amico D
Beta-endorphin concentrations in the peripheral blood mononuclear cells of migraine and tension-type headache patients, 155
Dahlof C
Cytochrome P-450-dependent hydroxylation in migraine, 158
Sumatriptan injection is superior to placebo in the acute treatment of migraine—with regard to both efficacy and general well-being, 214
Dartigues JF
A nationwide survey of migraine in France: prevalence and clinical features in adults, 229
Davis GC
Migraine, major depression and panic disorder: a prospective epidemiologic study of young adults, 85
de Marinis M
Headache associated with non-cephalic infections: classification and mechanisms, 197
de Tommaso M
Topographic analysis of steady-state visual evoked potentials (SVEPs) in the medium frequency range in migraine with and without aura, 244
Den Boer MO
Comparative effects of the antimigraine drugs sumatriptan and ergotamine on the distribution of cardiac output in anaesthetized pigs, 206
Dingemans W
Letter-to-the-Editor, 326
Drummond PD
Visual field loss after attacks of migraine with aura, 349
Dufour A
Immunological alterations in cluster headache during remission and cluster period. Comparison with low back pain patients, 250
Edvinsson L
Cutaneous sensory stimulation leading to facial flushing and release of calcitonin gene-related peptide, 53
Reduction of calcitonin gene-related peptide in jugular blood following electrical stimulation of rat greater occipital nerve, 275
Sumatriptan is a potent vasoconstrictor of human dural arteries via a 5-HT_1-like receptor, 202
Edwards C
Sumatriptan injection is superior to placebo in the acute treatment of migraine—with regard to both efficacy and general well-being, 214
Ekbom K
Cytochrome-P450-dependent hydroxylation in cluster headache, 161
Sumatriptan in chronic cluster headache: results of continuous treatment for eleven months, 254
Ekman R
Cutaneous sensory stimulation leading to facial flushing and release of calcitonin gene-related peptide, 53
Reduction of calcitonin gene-related peptide in jugular blood following electrical stimulation of rat greater occipital nerve, 275
Ellertsen B
MMPI profiles, 68
Personality factors in recurring and chronic pain, 129
Engelhardt A
Post-lumbar puncture headache: experiences with Sprotte's atraumatic needle, 259
Färkkilä M
Raised plasma endothelin during acute migraine attack, 383
Ferla E
MMPI profiles in patients with headache or craniofacial pain: a comparative study, 91
Ferrari MD
Blood flow velocities in the vertebrobasilar system during migraine attacks—a transcranial Doppler study, 29
From serotonin receptor classification to the antimigraine drug sumatriptan, 187
Sumatriptan, 3
Treatment of migraine attacks with subcutaneous sumatriptan: first placebo-controlled study, 308
Findley LJ
Sumatriptan in the treatment of acute migraine with aura, 39
Firenze C
Serum and salivary magnesium levels in migraine and tension-type headache. Results in a group of adult patients, 21
Floris R
Migraine with aura-like syndrome due to arteriovenous malformation. The clinical value of transcranial Doppler in early diagnosis, 115
Fragoso YD
Cluster headache: phospholipid metabolism in polymorphonuclear cells, 107
Fyhrquist F
Raised plasma endothelin during acute migraine attack, 383
Galiano L
Cardiovascular reflexes in patients with vascular headache, 360
Gallai V
Serum and salivary magnesium levels in migraine and tension-type headache. Results in a group of adult patients, 21
Gawel MJ
Letter-to-the-Editor, 326
Letter-to-the-Editor, 327
Occipital nerve block in the management of headache and cervical pain, 9
Genco S
Topographic analysis of steady-state visual evoked potentials (SVEPs) in the medium frequency range in migraine with and without aura, 244

Gilad I
Effect of sodium valproate on the secretion of prolactin, cortisol and growth hormone in migraine patients, 257
Goadsby PJ
Activation of the trigeminovascular system by mechanical distension of the superior sagittal sinus in the cat, 133
Cutaneous sensory stimulation leading to facial flushing and release of calcitonin gene-related peptide, 53
Subcortical cerebral blood flow and metabolic changes elicited by cortical spreading depression in rat, 137
Gobel H
Pain sensitivity and pain reactivity of pericranial muscles in migraine and tension-type headache, 142
Gorelick PB
Arterial head pain, 267
Grotemeyer K-H
The influence of acetazolamide on cerebral blood-flow regions in migraine—an interictal ^{99m}Tc-HMPAO SPECT study, 284
Hannerz J
Recurrent Tolosa-Hunt syndrome, 45
Hardebo JE
A cortical excitatory wave may cause both the aura and the headache of migraine, 75
Vasoreactivity of the intracranial internal carotid artery, 280
Heimberger K
Tension headache and the cervical spine—plain x-ray findings, 152
Henry P
A nationwide survey of migraine in France: prevalence and clinical features in adults, 229
Hering R
Effect of sodium valproate on the secretion of prolactin, cortisol and growth hormone in migraine patients, 257
Migraine and antiphospholipid antibodies, 67
Sodium valproate in the prophylactic treatment of migraine: a double-blind study versus placebo, 81
Weekend attacks in migraine patients: caused by caffeine withdrawal? 99
Hockaday, JM
Is there a place for abdominal migraine as a separate entity in the IHS classification? No, 346
Hoffert MJ
A double-blind controlled study of nifedipine as an abortive treatment in acute attacks of migraine with aura, 323
Hoskin KL
Activation of the trigeminovascular system by mechanical distension of the superior sagittal sinus in the cat, 133
Husstedt IW
The influence of acetazolamide on cerebral blood-flow regions in migraine—an interictal ^{99m}Tc-HMPAO SPECT study, 284
Iversen HK
Presentation of a new instrument: The diagnostic headache diary, 369
Jacobson G
Evoked potentials, 185
Jansen JC
Blood flow velocities in the vertebrobasilar system during migraine attacks—a transcranial Doppler study, 29
Jansen I
Sumatriptan is a potent vasoconstrictor of human dural arteries via a 5-HT$_1$-like receptor, 202
Jaron A
Childhood migraine in general practice: clinical features and characteristics, 238
Jensen RA
Presentation of a new instrument: The diagnostic headache diary, 369
Jensen K
Experimental pain in human temporal muscle induced by hypertonic saline, potassium and acidity, 101
Joseph R
Endothelin, 340
Vasoactive peptides, 3
Kanter R
A double-blind controlled study of nifedipine as an abortive treatment in acute attacks of migraine with aura, 323
Kaube H
Activation of the trigeminovascular system by mechanical distension of the superior sagittal sinus in the cat, 133
Kay J
Childhood migraine in general practice: clinical features and characteristics, 238
Keenan PA
Non-migraine headache across the menstrual cycle in women with and without premenstrual syndrome, 356
Király CS
The blink reflex in migraine, 289
Kirkham A
Sumatriptan in chronic cluster headache: results of continuous treatment for eleven months, 254
Kjeldsen M
The 5-HT$_1$-like agonist sumatriptan has a significant effect in chronic tension-type headache, 375
Kloster R
A double-blind study of ibuprofen versus placebo in the treatment of acute migraine attacks, 169
Kraft M
Benign coital headache, 353
Kropp P
Pain sensitivity and pain reactivity of pericranial muscles in migraine and tension-type headache, 142
Kruszewski P
Cluster headache: alterations in heart rate, blood pressure and orthostatic responses during spontaneous attacks, 172
Shortlasting, unilateral, neuralgiform headache attacks with conjunctival injection and tearing (SUNCT syndrome): V. Orbital phlebography, 387
Kudrow L
Cluster headache, 128

Kuritzky A
Effect of sodium valproate on the secretion of prolactin, cortisol and growth hormone in migraine patients, 257
Indomethacin-resistant Hemicrania Continua, 57
Sodium valproate in the prophylactic treatment of migraine: a double-blind study versus placebo, 81
Lance JW
Benign coital headache, 339
Laron Z
Effect of sodium valproate on the secretion of prolactin, cortisol and growth hormone in migraine patients, 257
Launay JM
Platelet size and volume distribution measured by automated platelet analyzer, 321
Lauritzen M
Spreading depression, 127
Leone M
Beta-endorphin concentrations in the peripheral blood mononuclear cells of migraine and tension-type headache patients, 155
Immunological alterations in cluster headache during remission and cluster period. Comparison with low back pain patients, 250
Lindamer LA
Non-migraine headache across the menstrual cycle in women with and without premenstrual syndrome, 356
Lipton RB
Evaluation of chronic daily headache—comparison to criteria for chronic tension-type headache, 365
Løbben OP
Cluster headache: phospholipid metabolism in polymorphonuclear cells, 107
Ludlow S
Treatment of migraine attacks with subcutaneous sumatriptan: first placebo-controlled study, 308
Lutz G
Headache following carotid endarterectomy: a prospective study, 380

Cytochrome P450-dependent hydroxylation in migraine, 158
coital headache
Benign coital headache, 339, 353
cortisol
Effect of sodium valproate on the secretion of prolactin, cortisol and growth hormone in migraine patients, 257
cyclooxygenase inhibitors
Cyclooxygenase inhibitors modify the relaxant effect of vasoactive intestinal polypeptide and substance P in isolated porcine ophthalmic artery, 15
depression
Migraine and mood, 68
Migraine, major depression and panic disorder: a prospective epidemiologic study of young adults, 85
endothelin
Raised plasma endothelin during acute migraine attack, 383
Endothelin, 340
epidemiology
A nationwide survey of migraine in France: prevalence and clinical features in adults, 229
Childhood migraine in general practice: clinical features and characteristics, 238
Migraine epidemiology, 186
Migraine, major depression and panic disorder: a prospective epidemiologic study of young adults, 85
Migraine with aura and migraine without aura: an epidemiological study, 221
Prevalence of adult migraine in general practice, 300
ergotamine
Comparative effects of the antimigraine drugs sumatriptan and ergotamine on the distribution of cardiac output in anesthetized pigs, 206
evoked potentials
Evoked potentials, 185
Topographic analysis of steady-state visual evoked potentials (SVEPs) in the medium frequency range in migraine with and without aura, 244
facial pain
Cutaneous sensory stimulation leading to facial flushing and release of calcitonin gene-related peptide, 53
MMPI profiles in patients with headache or craniofacial pain: a comparative study, 91
Recurrent Tolosa-Hunt syndrome, 45
Unilateral facial pain as the first symptom of lung cancer: are there diagnostic clues? 178
growth hormone
Effect of sodium valproate on the secretion of prolactin, cortisol and growth hormone in migraine patients, 257
headache—diagnosis/classification
Presentation of a new instrument: The diagnostic headache diary, 369
Accompanying symptoms of cluster attacks: their relevance to the diagnostic criteria, 165
Evaluation of chronic daily headache—comparison to criteria for chronic tension-type headache, 365
Headache associated with non-cephalic infections: classification and mechanisms, 197
Is there a place for abdominal migraine as a separate entity in the IHS classification? yes, 345
Non-migraine headache across the menstrual cycle in women with and without premenstrual syndrome, 356
Non-migraine menstrual headache, 339
Pain sensitivity and pain reactivity of pericranial muscles in migraine and tension-type headache, 142
hemicrania continua
Indomethacin resistant hemicrania continua, 4
Indomethacin-resistant hemicrania continua, 57
indomethacin
Indomethacin-resistant Hemicrania Continua, 57
Ipsilateral cluster headache and chronic paroxysmal hemicrania: two case reports, 318
lumbar puncture
Post-lumbar puncture headache: experiences with Sprotte's atraumatic needle, 259
magnesium
Magnesium, 3
Serum and salivary magnesium levels in migraine and tension-type headache. Results in a group of adult patients, 21
migraine—classification
Is there a place for abdominal migraine as a separate entity in the IHS classification? yes, 345
migraine—clinical
Benign coital headache, 339, 353
Migraine with aura-like syndrome due to arteriovenous malformation. The clinical value of transcranial Doppler in early diagnosis, 115
Non-migraine headache across the menstrual cycle in women with and without premenstrual syndrome, 356
Visual field loss after attacks of migraine with aura, 349
Weekend attacks in migraine patients: caused by caffeine withdrawal? 99
migraine—menstrual
Non-migraine headache across the menstrual cycle in women with and without premenstrual syndrome, 356
migraine pathogenesis
A cortical excitatory wave may cause both the aura and the headache of migraine, 75
Activation of the trigeminovascular system by

mechanical distension of the superior sagittal sinus in the cat, 133
Beta-endorphin concentrations in the peripheral blood mononuclear cells of migraine and tension-type headache patients, 155
Blood flow velocities in the vertebrobasilar system during migraine attacks—a transcranial Doppler study, 29
Cardiovascular reflexes in patients with vascular headache, 360
Cytochrome P450-dependent hydroxylation in migraine, 158
Effect of sodium valproate on the secretion of prolactin, cortisol and growth hormone in migraine patients, 257
From serotonin receptor classification to the antimigraine drug sumatriptan, 187
Migraine and antiphospholipid antibodies, 69
Pain sensitivity and pain reactivity of pericranial muscles in migraine and tension-type headache, 142
Platelet size and volume distribution measured by automated platelet analyzer, 321
Raised plasma endothelin during acute migraine attack, 383
Serum and salivary magnesium levels in migraine and tension-type headache. Results in a group of adult patients, 21
The blink reflex in migraine, 289
The influence of acetazolamide on cerebral blood-flow regions in migraine—an interictal ^{99m}Tc-HMPAO SPECT study, 284
Topographic analysis of steady-state visual evoked potentials (SVEPs) in the medium frequency range in migraine with and without aura, 244

migraine—pediatric
Childhood migraine in general practice: clinical features and characteristics, 238
Is there a place for abdominal migraine as a separate entity in the IHS classification? yes, 345
Is there a place for abdominal migraine as a separate entity in the IHS classification? no, 346
The optimal length of headache recording in juvenile migraine patients, 297

migraine—treatment
A double-blind controlled study of nifedipine as an abortive treatment in acute attacks of migraine with aura, 323
A double-blind study of ibuprofen versus placebo in the treatment of acute migraine attacks, 169
Effect of sodium valproate on the secretion of prolactin, cortisol and growth hormone in migraine patients, 257
Sodium valproate in the prophylactic treatment of migraine: a double-blind study versus placebo, 81
Sumatriptan in the treatment of acute migraine with aura, 39
Sumatriptan injection is superior to placebo in the acute treatment of migraine—with regard to both efficacy and general well-being, 214
Treatment of migraine attacks with subcutaneous sumatriptan: first placebo-controlled study, 308

MMPI
MMPI profiles, 68
MMPI profiles in patients with headache or craniofacial pain: a comparative study, 91
Personality factors in recurring and chronic pain, 129

neoplasia
Symptomatic chronic paroxysmal hemicrania, 111
Unilateral facial pain as the first symptom of lung cancer: are there diagnostic clues? 178

neurogenic inflammation
Interpreting vessel diameter changes in vascular headaches, 5
Occipital nerve block in the management of headache and cervical pain, 9

neurokinin A
Vasoreactivity of the intracranial internal carotid artery, 280

nifedipine
A double-blind controlled study of nifedipine as an abortive treatment in acute attacks of migraine with aura, 323

NSAIDs
A double-blind study of ibuprofen versus placebo in the treatment of acute migraine attacks, 169
NSAIDs, 128

occipital nerve
Occipital nerve block in the management of headache and cervical pain, 9
Reduction of calcitonin gene-related peptide in jugular blood following electrical stimulation of rat greater occipital nerve, 275

occipital nerve blockade
Occipital nerve block in the management of headache and cervical pain, 9
Occipital nerve blockade, 3

occipital neuralgia (see occipital nerve)
Occipital nerve block in the management of headache and cervical pain, 9

orbital phlebography
Recurrent Tolosa-Hunt syndrome, 45
Shortlasting, unilateral, neuralgiform headache attacks with conjunctival injection and tearing (SUNCT syndrome): V. Orbital phlebography, 387

pain
Evaluation of pericranial myofascial nociception by pressure algometry. Reproducibility and factors of variation, 33
Experimental pain in human temporal muscle induced by hypertonic saline, potassium and acidity, 101
Pain sensitivity and pain reactivity of pericranial muscles in migraine and tension-type headache, 142
Personality factors in recurring and chronic pain, 129

panic disorder
Migraine, major depression and panic disorder: a prospective epidemiologic study of young adults, 85

platelets
Platelet size and volume distribution measured by automated platelet analyzer, 321

pressure algometry
Evaluation of pericranial myofascial nociception by pressure algometry. Reproducibility and factors of variation, 33

prolactin
Effect of sodium valproate on the secretion of

prolactin, cortisol and growth hormone in migraine patients, 257
serotonin
Interpreting vessel diameter changes in vascular headaches, 5
A cortical excitatory wave may cause both the aura and the headache of migraine, 75
From serotonin receptor classification to the antimigraine drug sumatriptan, 187
Sumatriptan is a potent vasoconstrictor of human dural arteries via a 5-HT_1-like receptor, 202
Vasoreactivity of the intracranial internal carotid artery, 280
spreading depression
A cortical excitatory wave may cause both the aura and the headache of migraine, 75
Subcortical cerebral blood flow and metabolic changes elicited by cortical spreading depression in rat, 137
Spreading depression, 127
substance P
Cyclooxygenase inhibitors modify the relaxant effect of vasoactive intestinal polypeptide and substance P in isolated porcine ophthalmic artery, 15
Vasoreactivity of the intracranial internal carotid artery, 280
sumatriptan
Comparative effects of the antimigraine drugs sumatriptan and ergotamine on the distribution of cardiac output in anesthetized pigs, 206
From serotonin receptor classification to the antimigraine drug sumatriptan, 187
Interpreting vessel diameter changes in vascular headaches, 5
The 5-HT_1-like agonist sumatriptan has a significant effect in chronic tension-type headache, 375
Treatment of migraine attacks with subcutaneous sumatriptan: first placebo-controlled study, 308
Sumatriptan, 3, 185
Sumatriptan in chronic cluster headache: results of continuous treatment for eleven months, 254
Sumatriptan in the treatment of acute migraine with aura, 39
Sumatriptan injection is superior to placebo in the acute treatment of migraine—with regard to both efficacy and general well-being, 214
Sumatriptan is a potent vasoconstrictor of human dural arteries via a 5-HT_1-like receptor, 202
SUNCT
Shortlasting, unilateral, neuralgiform headache attacks with conjunctival injection and tearing (SUNCT syndrome): V. Orbital phlebography, 387
tension-type headache
Evaluation of chronic daily headache—comparison to criteria for chronic tension-type headache, 365
Pain sensitivity and pain reactivity of pericranial muscles in migraine and tension-type headache, 142
Tension-type headache, 127
The 5-HT_1-like agonist sumatriptan has a significant effect in chronic tension-type headache, 375
tension type headache—pathogenesis
Beta-endorphin concentrations in the peripheral blood mononuclear cells of migraine and tension-type headache patients, 55
Experimental pain in human temporal muscle induced by hypertonic saline, potassium and acidity, 101
Serum and salivary magnesium levels in migraine and tension-type headache. Results in a group of adult patients, 21
Tension headache and the cervical spine—plain x-ray findings, 152
Transcranial Doppler ultrasonic features in episodic tension-type headache, 293
Transcranial Doppler ultrasonic features in chronic tension-type headache, 385
Tolosa-Hunt syndrome
Recurrent Tolosa-Hunt syndrome, 45
The Tolosa-Hunt Syndrome, 4
transcranial Doppler
Blood flow velocities in the vertebrobasilar system during migraine attacks—a transcranial Doppler study, 29
Migraine with aura-like syndrome due to arteriovenous malformation. The clinical value of transcranial Doppler in early diagnosis, 115
TCD and headache, 267
Transcranial Doppler ultrasonic features in episodic tension-type headache, 293
Transcranial Doppler ultrasonic features in chronic tension-type headache, 385
trigeminal nerve
A cortical excitatory wave may cause both the aura and the headache of migraine, 75
Activation of the trigeminovascular system by mechanical distension of the superior sagittal sinus in the cat, 133
Interpreting vessel diameter changes in vascular headaches, 5
The blink reflex in migraine, 289
Trigeminovascular system, 127
valproate
Effect of sodium valproate on the secretion of prolactin, cortisol and growth hormone in migraine patients, 257
Sodium valproate in the prophylactic treatment of migraine: a double-blind study versus placebo, 81
Valproate in the prophylaxis of migraine, 67
vasoactive peptide
Vasoactive peptides, 3
vasoactive intestinal polypeptide
Cyclooxygenase inhibitors modify the relaxant effect of vasoactive intestinal polypeptide and substance
P in isolated porcine ophthalmic artery, 15
verapamil
Ipsilateral cluster headache and chronic paroxysmal hemicrania: two case reports, 318
